

# Preschool STEM Lab

Where play and learning connect!

Tuesday & Thursdays 8:30am-12:00pm • Ages 4-5 yrs.

The Preschool STEM Lab is a program that promotes Science, Technology, Engineering, and Mathematics in a hands-on authentic, natural setting. Each week children will nurture their curiosity through hypothesizing, experimenting, and problem solving while making self-to-world connections.

## Program Description

Each month children will participate in a monthly themed inquiry; discover the wonders of the Discovery Center's Galleries, enjoy a mid-morning snack, and explore during outdoor play. Lunch may be purchased from the Discovery Center's Kids Café for \$4 or brought from home. All children must be able to use the rest room independently.

### Arctic Explorers

*January*

We are heading north to the land of snow and icebergs. Come learn about the tools used to explore this glacial region and the indigenous animals that inhabit it.

### Night Creatures

*February*

What do you see in the night sky? Who is lurking in the twilight? Come find answers to these questions and more as we learn about nocturnal animals and astronomical occurrences in a month dedicated to life at night.

### Nano Science

*March*

Have you ever imagined how a bubble is created or how camouflage works? Come learn more about the science of the little things in life that make our world tick.

### Garden Inspectors

*April*

Do you know how seeds travel or why bees buzz? Join us in some hands on adventures as we explore, observe and discover what makes a garden grow.

### Rainforest Adventures

*May*

Calling all explorers! Travel to the wet and warm Rainforest with us as we discover the world of earth & life sciences through observation and imaginative play.

### Construction Function

*June*

Put on your construction hats as we jump into a variety of engineering challenges. This month will be all about balance, shapes, and problem solving!
