STORYTIME
Cuddle up with a good book and spend quality time together.

Big Idea:
Reading aloud promotes literacy and language development.

Materials:
- Good book
- Comfortable reading spot
- Props

Directions:
1. Have your child select a book they would like to read. Look through the pages, are there props such as a stuffed animal, puppet or toy you can use?
2. Find a cozy place to read with your child. While reading talk about the illustrations, ask open-ended questions, be creative with your voice and find creative ways to use your props.
3. Think about other ways to extend the story. Can you act out the story as a family, create a craft, or cooking experience?
