

EYE SPY IN THE SKY

What interesting things can you find in the sky?

Big Idea:

Get inspired to explore the sky to create your own Eye Spy in the Sky book.

Materials:

- A window, lanai or backyard
- White paper
- Clipboard or hard surface
- Writing tools (markers, crayons, colored pencils)
- Stapler

Directions:

1. Listen to the story Eye Spy in the Sky by Edward Gibbs
<https://youtu.be/qg7dEDPWLvc>
2. Look out a window or head outside. Make observations as to what you see in the sky.
3. Use your writing tools to draw what you see.
4. Once you have drawn your observations ask an adult to help you staple your book together. For more fun, add words to your new book!
