

LEAF RUBBINGS

Discover the Wonders of Printmaking

Big Idea:

Exploring our natural world reduces stress, increases creativity and supports STEM education.

Materials:

- Paper
- Fallen leaves
- Crayons

Directions:

1. Remove the wrapper from the crayon you are going to use. Place a piece of paper over a leaf you collected.
2. Holding the crayon sideways, rub it over the leaf. Watch your leaf rubbing magically appear. Can you see the stem and veins of your leaf?
3. If there is space, add another leaf to your design.
